

zrouter - Support #22

MBR/GPT for i386/amd64 image

12/11/2011 10:08 PM - Oleksandr Rybalko

Status:	New	Start date:	12/11/2011
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
We have way to make UFS w/o root access, but we need to find(write, tune) some tool, to fill boot data in that image. So machine that able to boot with MBR/GPT will be able to run ZRouter with just copy of image to media (USB-Stick, SD, SSD, ATA-Flash, etc)
